### RISK RATING

### FIRM OVERVIEW

RPIA is a global fixed income asset management firm specializing in corporate bonds and active interest rate management. Founded in 2009 by a group of senior executives from RBC, the firm has grown to over \$5 billion in assets under management and 64 employees. The cornerstone of RPIA's investment philosophy is the view that credit is an inefficient asset class and we seek to add value through credit research, active trading and interest rate management. Our investment process is designed to generate best in class risk-adjusted returns regardless of overall market direction. RPIA partners and employees are significant investors in our funds to ensure alignment with our clients.

### STRATEGY OVERVIEW

The Fund aims to generate attractive risk-adjusted returns and stable income by opportunistically investing in a diversified portfolio of corporate bonds and other credit securities. The Fund adds value through active management and employs an enhanced 'toolkit' relative to traditional bond funds in order to produce returns and preserve capital.
